**THE BAND: NOBODY CIRCUIT**  
**RE-TWEETED AND "LIKED."**  
**EVERYONE MATTERS, NOT JUST THE MOST VISIBLE,**

With over 60 years in music between them, nobody circuit is John Warren and Henry Heidmann. Influenced by their community, culture and the sounds of their home state North Carolina, their longevity as regional musicians/performers attests to the powerful influences of camaraderie plus social and environmental justice. John and Henry (and in performances often always interesting guest artists) support social involvement and universal truths: Treat others as you want to be treated; Inclusiveness and civility matter; Science really matters! Work together to mitigate the climate crisis. And enjoy good tunes and good friends along the way!

**THE ALBUM: "NATURAL WORLD"**

"Natural World" represents a selection of original songs recorded over more than three decades of "playing out."  
 "Look for meaning everywhere! Give a lot more than you take!"  
 "Learn to learn, learn to be awake."  
 (Excerpts from the song, Natural World)
